Abstract

From the 14th century until today, Monastery Neamț created by its dwellers important and remarkable pages of church history.

Many generations of monks prayed and worked in the Lavra-Neamț. Many generations of students have entered in the monastery and in the seminary, praying, learning, singing and watching Byzantine icons of saints, and admiring in the seraphimic sing the miraculous icon of Virgin Mary.

There were always new ones, some became novices and monks, others returned home to marry and receive the Sacrament of ordination to the priesthood serving in the various parishes. Being retired in the monastery Neamț, the Patriarch Nicodim Munteanu was the one who had a very important role in the monastery-activities of the years 1924-1948 and of course in the foundation of the Seminary in 1925.
